

MAKE A STATEMENT

There is no arguing the C500 Corpus[®] 3G is designed for power. Ideal for both indoor and outdoor use, the C500 has the ability to navigate even rough terrain; all the while the independent suspension of the C500 ensures a smooth ride. Plus, the Corpus 3G seating system provides added functionality and adjustment. A powerful center-mounted actuator offers up to 50° of tilt, and users can recline up to a full 175°. The legrests are curved for better support, and the armrests feature built-in channels for cable routing, significantly reducing the need for messy wire ties. The C500 Corpus 3G... a case in point of Permobil's commitment to innovation.
