Get Vertical

THE LIFESTAND LSR With sleek good looks, the LifeStand LSR combines urban design with excellent functionality. This wheelchair offers a power standing feature as well as an exclusive component for reclining while in a seated position that utilizes only one actuator. The LSR boasts a rigid frame. The wheelchair is also suitable for very active people. Ergonomically-friendly, the chair is constructed of innovative, high-tech materials. Like other LifeStand chairs, the LSR features armrests, knee supports and a chest belt to ensure comfort and safety. Plus, it offers an array of health benefits, including: increased muscle tone; strengthened bones; improved circulation and digestion; and reduced spasticity.
