

Xtender

Allows you to go the distance!

Xtender Highlights:

- Increases the force applied to the handrims by a factor of 1.5 (version 1) or 3 (version 2).
- Includes quick-release wheels to easily change from manual to assisted propulsion.
- Easy to transport and store.
- Electronically synchronized units provide excellent response and straight propulsion.
- Advanced lightweight battery technology.
- PDAC coding for reimbursement (E0986).
- No programming necessary.

Xtender Benefits:

- Excellent handrim grip for users with limited hand function.
- Reduces user fatigue and increases range of mobility.
- Reduces energy expenditure by as much as 45%.
- Allows user to cover different types of terrain with ease.
- “Rollback” assistance for hill climb.
- Excellent tool to overcome uneven arm strength.
