

INVACARE® TOP END® XLT SERIES HANDCYCLE

If recreation is your goal, the Invacare® Top End® XLT and XLT Jr. Handcycles are great fun and feature low maintenance 7 speed hubs with reverse hands-on braking. Just get out there and go! For long distances, touring or hilly terrain your best ride is the Invacare® Top End® XLT PRO Handcycle because it features 27 speeds with hands on braking and shifting. All Invacare Top End recreation handcycles are equipped with a safety flag, full composite chainguard, cushion and seat/chest restraint as standard, for extra value, comfort and safety.

The **Invacare® Top End® XLT PRO Handcycle** is the ultimate choice for handcycle enthusiasts for touring or long-distance riding. Why? The XLT PRO Handcycle features a comfortable recumbent position with 27 external gears that allow you to adjust to the slightest changes encountered on the road, including variations of wind, inclines and descents. The 27 speeds are operated by the Shimano® Rapid Fire hands-on shifter/brake which delivers smooth, responsive shifting and braking right at your fingertips. The frictionless ovalized ergonomic handpedals with posts on both the right and left allow you to mount the shifter on either side, plus the extra post is great for mounting a bell or safety mirror.

Many options and aftermarket accessories are available

The **Invacare® Top End® XLT Handcycle** is designed with the recreational handcycling enthusiast in mind. Equipped with seven speeds, the XLT handcycle will easily handle most terrain, whether you're riding around town or taking a spin in the country. The lightweight, oval tube aluminum XLT frame with chrome-moly steel fork features simple geometry for maximum stiffness and easy cornering. The seat and back are totally adjustable for a comfortable fit. The narrow rear-end enhances aerodynamics and the 15° of camber increases stability. If you want a great way to exercise, cross-train or just have fun, choose the XLT handcycle.

Many options and aftermarket accessories are available

The **Invacare® Top End XLT Jr. Handcycle** is a recumbent handcycle built just for kids. Easy to operate, this handcycle has seven speeds and an aluminum frame with a chrome-moly steel fork. The enhanced aerodynamics and the 15° of camber increase stability. A tall, narrow back offers maximum range of motion and support, with a chest strap for safety. This extremely stable and maneuverable three-wheel handcycle is great fun for anyone who's between 38" to 60" tall. Standard safety features include: reflectors, full chain guard, footrest safety straps, safety flag, cushion and seat restraint. The XLT Jr. Handcycle is totally adjustable and ready to ride!
